PRACTICAL DIFFICULTIES

ALL QUESTIONS REQUIRE A COMPLETE RESPONSE

R.R.C.O. 1133.17(c)(1). In order to grant an area variance, the following factors shall be considered and weighted by the Board of Appeals to determine practical difficulty:

- A.) Describe what special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other land or structures in the same zoning district (i.e., exceptional irregularity, narrowness, shallowness or steepness of the lot; or proximity to non-conforming and inharmonious uses, structures or conditions).

The existing house is 4'-7" from the property line and the addition is aligning with that existing wall.

- B.) Explain whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance (discuss use limitations without the variance).

It could but not for this family. It is a 2 bedroom house & they are a family of 5.

The existing attic has a pitch that is too shallow to be used for bedrooms.

- C.) Explain whether the variance is substantial and is the minimum necessary to make possible the reasonable use of the land or structures (demonstrate how much the variance request deviates from Code requirements, i.e., coverage is 1 or 2% above Code, or setback is 1 or 2 feet less than Code requirement).

It is the minimum necessary for this addition and only an 1'-8" variance.

- D.) Explain whether the essential character of the neighborhood would be substantially altered and whether adjoining properties would suffer substantial detriment as a result of the variance (discuss the increase of value, use, and aesthetic appeal for both your property and adjoining properties, together with any negative impact to adjoining properties).

No change to the character of the neighborhood since we are matching the existing house in alignment, scale & materials.

Also, many houses on this block , have a similar addition

E.) Explain whether the variance would adversely affect the delivery of governmental services, such as water, sewer, or trash pickup.

No

F.) Explain whether the property owner purchased the property with knowledge of the zoning restrictions.

No

G.) Explain whether special conditions or circumstances exist as a result of actions of the owner.

No

H.) Explain whether the property owner's predicament feasibly can be obviated through some method other than a variance (why other means and methods of property improvements or enhancements would not suffice).

No, Given the program of the addition, it is necessary that the kitchen walls align.

I.) Explain whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance (discuss the positive impact of your improvement on your property and on the surrounding neighborhood).

Yes, since the existing house is non- conforming, the intent of the zoning requirement would be observed. The variance request is minimal and the distance between this house and the neighbors would not change

J.) Explain whether the granting of the variance requested will confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

No, it would allow them to add to their house as others in their neighborhood have

K.) Explain whether a literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Code.

see above

PLEASE NOTE: A separate Permit Application and fee will be due prior to issuance of the Building Permit. NO CONSTRUCTION IS TO BEGIN until the Building Permit has been issued.
