1153.09 HEIGHT REQUIREMENTS.

All buildings and structures in any residential district shall comply with the following height regulations:

- (a) The height of principal buildings and structures shall not exceed twenty-five (25) feet.
- (b) The height of accessory buildings and structures shall not exceed ten (10) feet, except the height of detached garages shall not exceed twelve (12) feet at the highest point of the structure for a flat roof, and shall not exceed fifteen (15) feet at the highest point of the structure for any other roof that is not a flat roof, notwithstanding the height definition defined in Section 1123.02(b)(19) of this Code.
- (c) Permitted height exceptions are set forth in Section 1181.01, Supplementary Height Regulations. (Ord. 87-17. Passed 12-17-18.)

1153.11 DESIGN GUIDELINES FOR ONE AND TWO FAMILY DWELLINGS.

The purpose of the following design guidelines is to further the goals of the City's Master Plan. These guidelines are meant to insure that development projects respect the existing built environment that was recognized and valued in the City's Master Plan.

The provisions of this Section shall apply to all residential development, except Cluster Development, within the R-1 and R-2 Districts. Any addition, remodeling, relocation, or construction requiring review by the Architectural Review Board shall adhere to the guidelines in this Section, where applicable. The Architectural Review Board may exempt applicants from these standards when the exterior building modifications are minor in nature, meaning the design modifications will have no discernable impact on neighboring properties, the public, the public right-of-way, or those intended to occupy or use the proposed development.

- (a) Character of Dwellings. Principal dwellings are to be designed and located on the site and be of a scale to complement buildings in close proximity and enhance the character of the surrounding area by having features that are appropriate and compatible with existing buildings and structures. In making this determination, the following shall be considered:
 - (1) Building height, width, and general proportions;
 - (2) Architectural features, including patterns of windows and doors, roof pitch, balconies, porches, shutters, dormers, eaves and other decorative detail;
 - (3) Building materials.
 - (4) Explanation Of Terms. Certain terms and words shall be interpreted with regard to the following explanations:
 - A. Appropriateness. A proposal is judged to be appropriate when it respects the existing architectural style of a building or buildings and fits comfortably within its setting, neighborhood and overall community. This condition applies to landscaping and accessory structures, as well.
 - B. Compatibility. A design or a material selection is compatible when it does not strongly deviate from its parent building, or the overall character of the neighborhood. To be compatible does not require look alike designs, but rather designs that reflect some aspects of its parent building or buildings in the general vicinity, such as scale of windows, overhangs, building materials, patterns of siding, roof slope. Conversely, incompatibility occurs when an architectural design, landscape design or accessory building proposal is aesthetically harsh or overwhelming relative to its neighbors.
 - C. Proportion. The relationship of parts of a building, landscape, structures, or buildings to each other and to the whole balance.

PRACTICAL DIFFICULTIES

ALL QUESTIONS REQUIRE A COMPLETE RESPONSE

R.R.C.O. 1133.17(c)(1). In order to grant an area variance, the following factors shall be considered and weighted by the Board of Appeals to determine practical difficulty:

- A.) Describe what special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other land or structures in the same zoning district (i.e., exceptional irregularity, narrowness, shallowness or steepness of the lot; or proximity to non-conforming and inharmonious uses, structures or conditions).

PRIVACY concerns with 4 story CONDO
BUILDINGS BEHIND OUR PROPERTY

- B.) Explain whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance (discuss use limitations without the variance).

THE VARIANCE WILL PROVIDE ADDITIONAL SPACE ABOVE
OUR GARAGE FOR STORAGE. WITHOUT THE ADDITIONAL SPACE
WE WILL NOT BE ABLE TO USE THE GARAGE AS WE INTEND
(STORE SEASONAL LAWN EQUIPMENT + BIKES / STORE HOUSEHOLD ITEMS / BE ABLE TO PARK
BOTH CARS IN GARAGE)

- C.) Explain whether the variance is substantial and is the minimum necessary to make possible the reasonable use of the land or structures (demonstrate how much the variance request deviates from Code requirements, i.e., coverage is 1 or 2% above Code, or setback is 1 or 2 feet less than Code requirement).

YES, OUR FAMILY NEEDS ADDITIONAL
STORAGE SPACE FOOTAGE

- D.) Explain whether the essential character of the neighborhood would be substantially altered and whether adjoining properties would suffer substantial detriment as a result of the variance (discuss the increase of value, use, and aesthetic appeal for both your property and adjoining properties, together with any negative impact to adjoining properties).

NO, THERE ARE SEVERAL GARAGES IN MY
NEIGHBORHOOD VERY SIMILAR TO THE GARAGE
WE WANT TO BUILD

E.) Explain whether the variance would adversely affect the delivery of governmental services, such as water, sewer, or trash pickup.

N/A The GARAGE IS IN THE BACK CORNER
OF OUR LOT, NOTHING OR NO ONE GOES BACK THERE

F.) Explain whether the property owner purchased the property with knowledge of the zoning restrictions.

when we purchased the property I WAS AWARE THAT THE CITY HAD
ZONING RESTRICTIONS I WAS NOT AWARE HOW THEY WOULD
IMPACT me personally

G.) Explain whether special conditions or circumstances exist as a result of actions of the owner.

N/A These conditions / circumstances are
NOT A RESULT OF OUR ACTIONS

H.) Explain whether the property owner's predicament feasibly can be obviated through some method other than a variance (why other means and methods of property improvements or enhancements would not suffice).

NO The ONLY WAY TO ADD THE ADDITIONAL STORAGE
IS TO BUILD UP OVER THE GARAGE OUR LOT IS SMALLER
+ WE DON'T HAVE SPACE TO ADD WIDTH (INSTEAD OF HEIGHT),

I.) Explain whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance (discuss the positive impact of your improvement on your property and on the surrounding neighborhood).

YES IT WILL ALLOW OUR FAMILY TO
CONTINUE TO GROW + STAY AT THIS RESIDENCE

J.) Explain whether the granting of the variance requested will confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

NO, THIS REQUEST WOULD BE CONSISTENT WITH MANY OTHER
HOMEOWNERS IN MY NEIGHBORHOOD. THE HOMES ARE OLD WITH
LIMITED STORAGE SPACE. THE ADDITIONAL HEIGHT MAKES THIS SPACE FUNCTIONAL.

K.) Explain whether a literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Code.

NO, BUT WE DO FEEL THAT THERE ARE SEVERAL
GARAGES IN THE NEIGHBORHOOD THAT WOULD BE VERY
SIMILAR TO THE GARAGE WE WOULD BUILD.

PLEASE NOTE: A separate Permit Application and fee will be due prior to issuance of the Building Permit. NO CONSTRUCTION IS TO BEGIN until the Building Permit has been issued.

we feel it would ADD VALUE NOT ONLY TO OUR
HOME BUT THE NEIGHBORHOOD.
