AN PLAN REVIEW PERFORMED ON _HAS REVEALED THAT YOU ARE IN
VIOLATION OF THE FOLLOWING ORDINANCE(S) OF THE CITY OF ROCKY RIVER.

1153.15 ACCESSORY USES AND STRUCTURES

k) Air Conditioning, Generators and Heat Pumps. Air conditioner condensers, generators and heat pumps shall comply with the following:

(1) Outdoor condensers and heat pumps may be located in either the rear yard or the side yard, but shall not be located less than ten (10) feet from the side lot line. No more than two (2) such units may be located in the side yard. Such units shall be baffled so as not to exceed the noise level of seventy (70) decibels measured from the lot line, and screened with evergreen plant material so that within two (2) years the equipment is adequately screened from view.

(2) Permanently installed generators may also be located in either the rear yard or the side yard, but not less than ten (10) feet from the side lot line and shall be baffled and screened according to the provisions in subsection (k)(1) above. Generators shall only be used as an emergency and temporary source of electrical power, and exclusively fueled by natural gas

- After multiple conversations with Micheal the contractor has yet to follow through with the variance process
- Contractor was made aware that the permit was not approved and would need a variance for the generator permit to be approved
- Please comply by 5/25/25

ROCKY RIVER BOARD OF ZONING & BUILDING APPEALS

INSTRUCTIONS TO APPLICANTS

MEETINGS: 2nd Thursday of each month at 7:00 P.M. in Council Chambers of Rocky River City Hall.

DUE DATE FOR SUBMITTALS: 2 weeks (14 days) prior to the scheduled BZA meeting. Late or incomplete submittals will not be forwarded to the Board for inclusion on the upcoming agenda.

WHO MUST ATTEND: A representative, including the property owner, must be present at the BZA meeting for all variance requests.

APPLICATION FEE: Residential Variance - \$100.00 first variance + \$35.00 each additional variance
Commercial Variance - \$150.00 first variance + \$35.00 each additional variance request.

SUBMISSION REQUIREMENTS: Please provide 11 stapled sets of the following:

- 1) **Appropriate Building Permit Application** for your project. (i.e., Building Permit Application, Fence Permit Application, Accessory Permit Application, etc.); **Check representing Application Fee.**
- 2) **Fully completed Variance Application.** Begin with a written narrative describing exactly what project you would like to do and why it is necessary to do so. Please refer to the Typical Variance Sheet for guidance on which standard (Practical Difficulty **OR** Unnecessary Hardship) applies to your request – only complete questions under the appropriate heading.
- 3) **Detailed site drawing** – see attached example, showing all existing structures on the subject property, as well as structures on properties directly adjacent to the location of the subject of your variance request (i.e., line of neighbor's house, driveway and garage closest to the addition you are proposing). Proposed structures must also be shown on the site drawing, with dimensions and distances from property lines clearly labeled. PLEASE STAKE THE PROPERTY TO SHOW FOOTPRINT OF ADDITIONS, SHEDS OR LOCATIONS OF A/C CONDENSERS, etc. Site plan should show lot coverage by building calculation (existing and proposed).
- 4) **Elevation drawings** (for pergola, garage, addition or any exterior alteration). Show what all sides of the finished project will look like. Submit a photo example of proposed fences and sheds. Show height of structure on the elevations. Additions will require existing and proposed interior floor plans for the floors that are affected.
- 5) **Photographs** of your property and adjacent properties. Label each photo for clarity.
- 6) **Support letters** from surrounding property owners, if available.
- 7) **Any other information as may be requested** by the Building Department or Board Members.

All documentation or other information shall be delivered to:

Rocky River Board of Zoning & Building Appeals, City of Rocky River Building Department, 21012 Hilliard Blvd., Rocky River, Ohio 44116. Call 440-331-0600 ext. 2037 with questions.

(Applicants may not communicate with or present information relating to their variance request to any Board member directly. Communications must be submitted to the Building Department for delivery to the Board.)

I, (the owner/applicant) understand that upon the granting of my variance request from the BZA, a separate Permit Application fee will be due prior to the issuance of the Building Permit. I will not begin construction until the Building Permit has been issued.

Date

R.R.C.O. 1133.17(c)(1). In order to grant an area variance, the following factors shall be weighted by the Board of Appeals to determine practical difficulty:

- A.) Describe what special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other land or structures in the same zoning district (i.e., exceptional irregularity, narrowness, shallowness or steepness of the lot; or proximity to non-conforming and inharmonious uses, structures or conditions).

The side yard is very narrow but the rear yard faces the waterway and has a porch nearby that would be a less visually appealing option for the install

- B.) Explain whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance (discuss use limitations without the variance).

Without the variance the generator cannot be installed in a pleasing manner

- C.) Explain whether the variance is substantial and is the minimum necessary to make possible the reasonable use of the land or structures (demonstrate how much the variance request deviates from Code requirements, i.e., coverage is 1 or 2% above Code, or setback is 1 or 2 feet less than Code requirement).

The variance is for the generator to be approx 5' from the property line on the side of the home. The placement puts the generator on the same side of the home as the A/C units and a greenhouse structure

- D.) Explain whether the essential character of the neighborhood would be substantially altered and whether adjoining properties would suffer substantial detriment as a result of the variance (discuss the increase of value, use, and aesthetic appeal for both your property and adjoining properties, together with any negative impact to adjoining properties).

Generators produce noise but typically when they run it is during inclement weather and noise isn't the main concern

F.) Explain whether the property owner purchased the property with knowledge of the zoning restrictions.

Unlikely that all of the various zoning rules were known

G.) Explain whether special conditions or circumstances exist as a result of actions of the owner.

None

H.) Explain whether the property owner's predicament feasibly can be obviated through some method other than a variance (why other means and methods of property improvements or enhancements would not suffice).

No other placement for this unit

I.) Explain whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance (discuss the positive impact of your improvement on your property and on the surrounding neighborhood).

The improvement would be in having a home where the mechanical system can be uninterrupted

J.) Explain whether the granting of the variance requested will confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

None to my knowledge

K.) Explain whether a literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Code.

Unlikely that others in a similar situation would not be given the same rights
