PRACTICAL DIFFICULTIES

ALL QUESTIONS REQUIRE A COMPLETE RESPONSE

R.R.C.O. 1133.17(c)(1). In order to grant an area variance, the following factors shall be considered and weighted by the Board of Appeals to determine practical difficulty:

A.) Describe what special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other land or structures in the same zoning district (i.e., exceptional irregularity, narrowness, shallowness or steepness of the lot; or proximity to non-conforming and inharmonious uses, structures or conditions).

The property is a small 50.0' x 108.58' lot. The existing structure was built 4.7' off of the West
_____ property line.

B.) Explain whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance (discuss use limitations without the variance).

The owners are proposing an addition which will provide them the opportunity to age in place.
_____ There have been some health issues in the past. They realized that having a full bath on the
_____ 1st floor would have helped out immensely

C.) Explain whether the variance is substantial and is the minimum necessary to make possible the reasonable use of the land or structures (demonstrate how much the variance request deviates from Code requirements, i.e., coverage is 1 or 2% above Code, or setback is 1 or 2 feet less than Code requirement).

West Setback 8' has a requested 3.3' variance
_____ Lot coverage 28% has a requested 6% variance

D.) Explain whether the essential character of the neighborhood would be substantially altered and whether adjoining properties would suffer substantial detriment as a result of the variance (discuss the increase of value, use, and aesthetic appeal for both your property and adjoining properties, together with any negative impact to adjoining properties).

Neighboring properties have accomplished similar additions. In granting the variances,
_____ there will be no question that the addition will insure an increase in value enuring to the
_____ neighboring properties.

E.) Explain whether the variance would adversely affect the delivery of governmental services, such as water, sewer, or trash pickup.

The variances will have no adverse affect to the delivery of governmental services

F.) Explain whether the property owner purchased the property with knowledge of the zoning restrictions.

We cannot opine to the owner's knowledge of zoning restrictions

G.) Explain whether special conditions or circumstances exist as a result of actions of the owner.

See answer to question "D"

H.) Explain whether the property owner's predicament feasibly can be obviated through some method other than a variance (why other means and methods of property improvements or enhancements would not suffice).

See answers to questions "B" & "D"

I.) Explain whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance (discuss the positive impact of your improvement on your property and on the surrounding neighborhood).

See answers to questions "D" & "K"

J.) Explain whether the granting of the variance requested will confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

In granting the variances, there will be no special privilege conferred to the applicant.

K.) Explain whether a literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Code.

Due to the small lot size and the existing site conditions. We feel that a literal interpretation of the code would most certainly deprive rights commonly enjoyed by other properties in the same district.

PLEASE NOTE: A separate Permit Application and fee will be due prior to issuance of the Building Permit. NO CONSTRUCTION IS TO BEGIN until the Building Permit has been issued.
