PRACTICAL DIFFICULTIES

ALL QUESTIONS REQUIRE A COMPLETE RESPONSE

R.R.C.O. 1133.17(c)(1). In order to grant an area variance, the following factors shall be considered and weighted by the Board of Appeals to determine practical difficulty:

- A.) Describe what special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable generally to other land or structures in the same zoning district (i.e., exceptional irregularity, narrowness, shallowness or steepness of the lot; or proximity to non-conforming and inharmonious uses, structures or conditions).

House is 9' from property line.

- B.) Explain whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance (discuss use limitations without the variance).

Homeowner wants to keep pool equipment next to generator which is already located on side of the house

- C.) Explain whether the variance is substantial and is the minimum necessary to make possible the reasonable use of the land or structures (demonstrate how much the variance request deviates from Code requirements, i.e., coverage is 1 or 2% above Code, or setback is 1 or 2 feet less than Code requirement).

We are asking for the pool equipment to be 5' from property line as the equipment needs four feet and house is only 9' off property line.

- D.) Explain whether the essential character of the neighborhood would be substantially altered and whether adjoining properties would suffer substantial detriment as a result of the variance (discuss the increase of value, use, and aesthetic appeal for both your property and adjoining properties, together with any negative impact to adjoining properties).

The pool equipment will be next to ~~existing~~ ^{existing} generator and A/C. That side of house is blocked by Lilac bushes from the neighbors view.

E.) Explain whether the variance would adversely affect the delivery of governmental services, such as water, sewer, or trash pickup.

No

F.) Explain whether the property owner purchased the property with knowledge of the zoning restrictions.

No - Due to ~~current~~ existing generator in this location, Homeowner thought the pool equipment could go there as well

G.) Explain whether special conditions or circumstances exist as a result of actions of the owner.

No - Homeowner did not have generator installed

H.) Explain whether the property owner's predicament feasibly can be obviated through some method other than a variance (why other means and methods of property improvements or enhancements would not suffice).

The measurement from house to property line is only 9' so it would be impossible to get the 10' required.

I.) Explain whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by granting a variance (discuss the positive impact of your improvement on your property and on the surrounding neighborhood).

The pool equipment will be blocked by bushes and the equipment runs a new pool which increases property value.

J.) Explain whether the granting of the variance requested will confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

No

K.) Explain whether a literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Code.

It would not allow him to have anything on the side of his house.

PLEASE NOTE: A separate Permit Application and fee will be due prior to issuance of the Building Permit. NO CONSTRUCTION IS TO BEGIN until the Building Permit has been issued.
