done last winter by licensed electrician and already in place -

THIS APPLICATION IS HEREBY MADE TO INSTALL WORK AS INDICATED BELOW.

RESIDENTIAL EQUIPMENT LOCATION

Unit distance from property line: 6.5 feet (variance application pending)

** Condensers, heat pumps, and generators may be in either the rear yard or the side yard but shall not be located less than ten (10) feet from the side lot line.

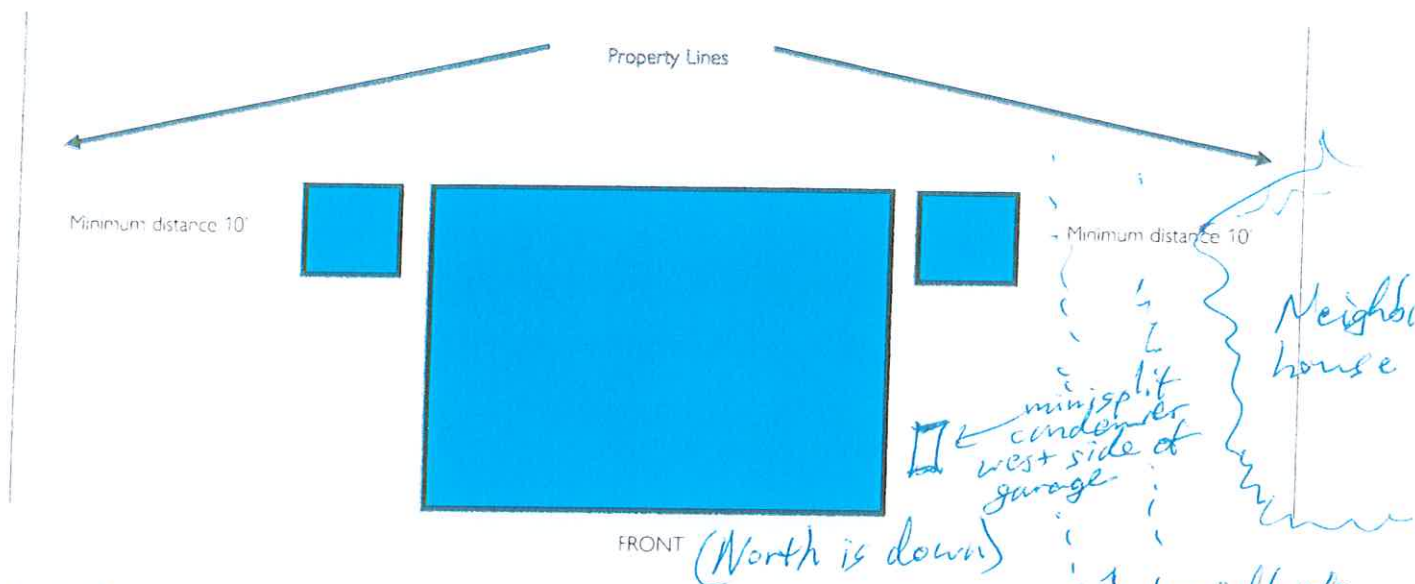

Sound rating of unit(s): 55-58 DB's

** Such units shall be baffled so as not to exceed the noise level of seventy (70) decibels measured from the lot line.

Proposed screening method: shrubs

** Condensers, heat pumps, and generators must be screened from adjacent neighbors and public right-of-way with evergreen plant material so that within two (2) years the equipment is adequately screened from view.

Additional Unit: ☐ YES (location to be drawn on the diagram below.) ☐ NO
 * No more than two (2) such units may be in the side yard.
