

20041 Riverwood

On June 9th, 2026, I stopped by 20041 Riverwood, because I noticed the driveway was excavated and formed. I looked up the address on Citizenserve and verified that we didn't have a permit for the job. I knocked on the door, and no one answered, so I left my business card and a door tag stating, "call about driveway".

The driveway was poured early on June 10th and I immediately sent a notice to remove. Homeowner received letter and called building department (date not logged). Law director O'Shea instructed us to hold off on enforcing the removal but instructed the building department to cite the property owner and issue a new notice to remove stating,

"We will NOT be requiring the driveway to be removed prior to the meeting, as long as the conditions of this letter are met. We also require you to submit the name and contact of the contractor that poured the driveway. Please apply for a variance for the next available Zoning Board meeting. The next meeting as of this letter is 8/13 and the deadline for submission is 7/30. Please pick up the necessary information as soon as possible. Failure to do so will result in additional fines and citations."

This letter was sent on June 25th, 2026.

The homeowner(s) immediately complied. Both homeowner(s) and contractor have been cited.
