RE: Han's Plaza Access to Linda Street

Dear Members of the Planning Commission,

I have consulted our Fire Division regarding the potential impact to response time to Han's Plaza for Fire and EMS personnel and have been assured that a closure on Linda Street will not affect response times.

Regarding any potential impact of the closure on traffic to Detroit Road, I do not believe that the volume of cars that would typically use Linda Street access would significantly impact the flow on Detroit. It would only be through traffic counts that we could truly evaluate that. I recognize that the flow of traffic on Detroit Road is difficult, especially during peak times. I am working with consulting engineers to further evaluate and develop plans for improvement.

In conclusion, I see no reason for prohibit the closure of the access from Han's Plaza to Linda Street.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rich Snyder".
