Please watch the Service Department's Facebook page for notifications. The Mayor stated that a crew may be out on Saturday as well, depending on the weather.

LAW DIRECTOR'S REPORT: Law Director Bemer reported that Ordinance No. 90-19, Chapter 1321, Entitled Permit, Inspection and License Fees and Ordinance No. 92-19, Chapter 1141.11 Entitled Permit, Failure to Obtain Certificates and Orders have some common language that Councilman Klym and Mr. Bemer have been working on but have not quite completed. Please note that in No. 90-19 there was some significant reformatting done in the last week along with minor substantive changes. Please let Mr. Bemer know if there are any questions. The language has to do with assessment or failure to secure inspections or permits. Mr. Bemer recommends Council does not address these two Ordinances this evening.

COMMITTEE REPORTS: Finance Committee: Councilman O'Donnell said that there was a Finance Committee Meeting on December 6th beginning at 8:00 a.m. regarding Ordinance No. 94-19. This Ordinance was read for the first time on November 12th, discussed at the Committee-of-the-Whole Meeting on November 18th, a Public Hearing was held on November 25th and read for a second time and a Finance Committee Meeting on Friday, December 6th for over four hours. It was an insightful meeting attended by Mayor Bobst, Mr. Thomas, Director Costello, Director Holub, Chief Stillman, Chief Lenart, Director Huff, Superintendent McConnell, Judge Fitzsimmons, Clerk Comery and Commissioner Snyder. It was a dynamic overview of what is happening in the city. Director Thomas is working on some additional updates to the budget that Council will receive in their

packets this week. Please review as Ordinance No. 94-19 will be read for a third time at the Special Meeting next Monday.

- President Moran congratulated Mr. O'Donnell for putting a great meeting together. The four-hour meeting could have gone another four hours. The Directors had quite a bit to say about the great things in 2019 and the great things that will happen in 2020. Council learned quite a bit from all the presentations.

Mr. Shepherd does not think there is an exclusivity clause so it would not prohibit the city if the city wanted a different type engineer. It is a contract but one that relies upon good faith and trust with the performance.

This contract will allow the city to fulfill their obligations under the collective bargaining agreements and also provides important health benefits for full-time employees. There are no substantial reduction in benefits. The Mayor was able to keep the overall increase at 3.8% and in today's healthcare inflation, that is tremendous.

MISCELLANEOUS BUSINESS: Mr. Klym added in regard to Ordinance Nos. 86-19 and 87-19, he would like to thank Director Thomas, Director Costello and the Mayor in receiving almost \$11 million dollars on the watermain projects from the City of Cleveland. This is not the first time money has been sent back to the City of Cleveland and never has the city asked for more money. This has to do with how successful the city is on these projects year in and year out and is a tremendous credit to the administration. Since 2012 almost \$11 million has been received for approved projects, which is a tremendous assistance to the city. This also shows very good stewards of the funds as the city is using only what it needs.

Mr. Moran concurred with Mr. Klym's statement regarding this decision years ago. This has been a very advantageous situation with huge savings of money that would have come out of the city's budget. The city jumped on this at the right time.

Mr. Furry said the first offer from Cleveland Water was not as good, but the next offer was more advantageous for the city. The waterlines were not assets but liabilities then.

Mr. Shepherd noted that next year the city will be receiving another \$2 million for Story Road and a couple of other projects.

PUBLIC COMMENT: Mr. Ed Nolan, 22607 Meadowhill Lane, Rocky River, thanked the administration for all the infrastructure improvements. Mr. Nolan would like to discuss the Master Plan and the ideas concerning cycling. He has not seen a sign or paint anywhere in Rocky River. The Mayor stated that NOACA is providing a program regarding bicycling and pedestrian Master Plans. This is something Director Costello wanted to do coming out of the city's Master Plan. Rocky River is on the State and National Bike Route. Starting with signage, the city has looked at sharrows but other communities have shared that sharrows work well at first but people begin to ignore them. The Mayor thinks there needs to be a lot of public education about sharing the roads and what that means both for cyclists and motorists. There has been discussion about expanding the sidewalk on the south side of Hilliard by taking the entire tree lawn and making a two way pedestrian and cycling from Westlake to the Metroparks. The issue for Rocky River in striping Hilliard is #1 there is not enough cartway or lane width on Hilliard to do that. #2 Rocky River also allows for parking on Hilliard because there are great distances between the north and south connectors. The city needs to look at other solutions. Parents have given feedback about striping and adults understand what that means, but maybe not children and it could encourage something that is not safe. The Confluence Grant that Director Costello secured for access around the community along with the MetroParks and Lakewood will have some impact, including the section of Hilliard east of Wooster. This is something that is on the administrations mind but it is not happening tomorrow. Putting up signage and sharrows were a part of Detroit Road and the community did not think Detroit Road was the right place for that. The Mayor would love to discuss this further to identify opportunities and where the biking community sees opportunities. The Mayor works a lot with Scott Cowan at Century Cycle. The Bike to School Program is something the city encourages along with bike racks that create an artistic element in the community.

- Councilman Klym encouraged Mr. Nolan to attend the meeting this evening because this is something that is in the Master Plan. There is a two to three page discussion regarding this topic. It is something the Cuyahoga County Planning Commission discusses regarding connections to the Metroparks and here is an opportunity for a citizen who is interested in this topic. Mr. Klym knows there are others because he has had others ask him about bike paths. This may be a chance to continue making the Master Plan a living and breathing document by putting together a committee of residents to discuss this topic.

The Mayor said that stakeholders are needed on the Confluence Grant. If the County receives grant money, they are looking for lakefront access points and have plans for both cyclists and pedestrian. The city was part of the support for that. The Mayor wants the Master Plan to be put in action.

As there was no further business by members of Council, the meeting was adjourned at 8:00 p.m. Mr. Moran reminded Council that next week will be a Committee-of-the-Whole Meeting followed by a Special Meeting.
