Re: **REVISED 2017 Contract for Public Health Services**

Dear Mayor Bobst:

Enclosed please find the **REVISED** 2017 contract for public health services provided by the Cuyahoga County Board of Health (CCBH).

Chapter 3709 of the Ohio Revised Code stipulates that each city in the State of Ohio " ...must provide health services either through a city health district or by a valid contract or union with the county health district or an adjacent city health district." The Director of the Ohio Department of Health certifies this provision of health services annually. To remain certified, the contract needs to be approved by your Council and returned to the Cuyahoga County Board of Health by December 31, 2016.

The Board of Health public health service contracts our based on a per capita population rate. For the last three years (2014, 2015, and 2016) our per capita rate remained the same, at \$3.92. **For 2017 our per capita rate will be \$4.12 per capita, which is a 5% increase.** This contract represents your total cost for public health services and stills stands among the lowest rates among health districts in the State of Ohio.

We have always worked diligently to diversify our funding streams to meet the public health needs of the community while controlling costs to the cities, villages and townships we serve. Approximately half of our budget is supported by federal, state and local grants and contracts. These additional funding sources substantially increase the scope of our services to the citizens of your community and keep direct costs to our communities down.

The Cuyahoga County Board of Health works with our contract communities on a wide range of public health issues that impact your citizens. Examples of recent activities include the following:

We convene a countywide taskforce that is working to address the alarming rise in the misuse of opiate prescription drugs and the corresponding and alarming rise in overdoses and deaths related to prescription opiates, heroin, fentanyl and recently

carfentanyl (<http://opiatecollaborative.cuyahogacounty.us>). Through this work, we have coordinated the distribution of the naloxone overdose reversal drug to police departments in almost 50 Cuyahoga County communities and work to educate families, community providers, safety forces, students and administrators in academic settings.

Our work also focuses on a range of existing and emerging public health issues including school age childhood vaccinations and boosters; novel influenza and annual pneumonia vaccinations; educating the public on Zika virus and other mosquito-borne illnesses; and responding to and mitigating the proliferation of bed bug-related complaints in residential, business and institutional settings. On the clinical front, we provide safety net services for underinsured and uninsured clients as these roles are evolving in the context of the Affordable Care Act (ACA). Public health emergency preparedness and response continues to be an important responsibility in support in our communities.

Our five year strategic plan (2016-20) is designed to best position the agency to lead with our talented workforce, capitalize on new technology, build essential communication and community engagement capacity, address priority health problems and attain national public health accreditation (<http://www.ccbh.net/strategic-planning/>). These efforts are supported by the guiding principles of health equity, where all people have the opportunity to attain their full health potential, regardless of their race, income or other social determinants of health. Two issues featured in the plan include linking clinical medicine and public health to address chronic diseases like asthma, obesity and diabetes and reducing infant mortality. Both of these priorities are tied to a statewide health improvement strategy.

Please contact me if you have any questions concerning the 2017 contract, or if you would like us to come to your city to present our contract to your administration or council.

Sincerely,

Terry Allan, RS, MPH
