SCHEDULE A
Project Description

Organization Name:	City of Rocky River, Ohio
Project Description:	Bradstreet Pier Reconstruction Project
Total Project Cost:	\$ 2,394,226
• In November 2017 - an engineering dive team determine the near-shore section of pier cannot be repaired and must be replaced. Deficiencies within the nearshore section of pier required closing the it to pedestrians due to undermining of the structure and large voids under the concrete deck. The 310' of pier that lies beyond the nearshore section was determined to be in good condition; however, it cannot be reached due to the closure of the nearshore section. The pier remains closed due to concerns over public safety. • The nearshore section of pier will be replaced to improve public access for all regardless of age, ethnicity and ability levels and in a manner, that will support stewardship of our valuable coastal resources. • SmithGroup JJR - the firm that has created the park's Master Plan - estimates that the demolition of the unsafe pier and the new construction will cost \$2,400,000. • The first phase of implementation of the Bradstreet's Landing park Master Plan will be reconstruction of the much-loved pier. The pier is an anchor for the comprehensive Master Plan. The City of Rocky River seeks to implement recommendations from the plan that will increase access to Lake Erie - improve water quality within Spencer Creek and expand access to the lakefront by using local and regional trails. The goal of the park's Master Plan is to continue supporting a high-quality of life for residents and visitors. • This project advances many of the goals found within the State of Ohio's Lake Erie Protection and Restoration Plan including projects to improve the resiliency of beaches and shoreline, providing safe, health and accessible coastal areas for all Ohioans, and promotes economic growth in the Lake Erie basin while being linked to sustainable uses that depend upon Lake Erie waters. • The Great Lakes Regional Collaboration calls for, " ... outreach that brands the Great Lakes as an exceptional and competitive place to live, work, invest, and play." Bradstreet's Landing's pier will provide permanent, improved public access to Lake Erie that will support the region by attracting young families and those interested in low impact water recreation, photography and beach collection hobbies. • This project helps meet goals created in the 1993 Ohio Statewide Comprehensive Outdoor Recreation Plan for enhanced, urban outdoor recreation - especially increased outdoor activities and public access to the Great Lakes. • There is a diversity of users at this park; however the deficiencies of infrastructure in addition to the pier, including accessibility issues, inadequate seating and an absence of shoreline protection limit our visitors' enjoyment This project will be the stimulus to solve those deficiencies.
