

AN EMERGENCY ORDINANCE AUTHORIZING THE MAYOR AND THE DIRECTOR OF PUBLIC SAFETY-SERVICE TO ENTER INTO AN AGREEMENT WITH AECOM TECHNICAL SERVICES FOR THE PRIVATE PROPERTY DYE TESTING IN AN AMOUNT NOT TO EXCEED \$199,786.00, AS FURTHER DESCRIBED IN EXHIBIT "A"

WHEREAS: the U. S. Environmental Protection Agency (EPA) has issued an Amended Administrative Order on Consent to the City of Rocky River, Ohio under the authority of section 309(a) of the Clean Water Act, 33 U.S.C 1319(a); and

WHEREAS: as a condition of the Administrative Order on Consent the City of Rocky River must eliminate flows from sanitary sewer overflow #306 (Magnolia and Westway) no later than five years and #302 (Falmouth and Beachcliff) no later than ten years of the effective date of April 22, 2022; and

WHEREAS: AECOM has been selected to provide additional private property flow monitoring, dye testing and updating to the hydraulic model for Sewersheds 4 & 12 in order to identify inflow and infiltration (I/I) sources on private property for the reduction of flow to SSO #306 and #302, as further described in Exhibit "A"; and

WHEREAS: It is the opinion of the Administration for the City of Rocky River that AECOM is qualified and prepared to provide unique, personal services for the project in an amount not to exceed One Hundred Ninety Nine Thousand Seven Hundred Eighty Six Dollars and 00/100 (\$199,786.00).

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ROCKY RIVER, COUNTY CUYAHOGA, STATE OF OHIO:

SECTION 1. - That the Mayor and the Director of Public Safety-Service are hereby authorized to enter into an agreement with AECOM Technical Services, Inc., 1178 Paysphere Circle, Chicago, IL 60674, in an amount not to exceed One Hundred Ninety Nine Thousand Seven Hundred Eighty Six Dollars and 00/100 (\$199,786.00), as further described in Exhibit "A".

SECTION 2. - That funds for said technical services shall be paid from the Sewer Rehabilitation Fund-Engineering Services account.

SECTION 3. - That this Ordinance is hereby declared to be an emergency measure, necessary for the immediate preservation of public peace, health and safety, and for the further reason that it is necessary to proceed immediately so that design for improvements can begin and be ready to bid for the next construction season and, provided it receives the affirmative vote of two-thirds (2/3) of all members elected to Council, it shall take effect and be in force immediately upon its passage and approval by the Mayor; otherwise it shall take effect and be in force from and after the earliest period allowed by law.

PASSED: July 24th, 2023

John E. Belz

Scott Belz
Program Manager- Field Services
Water

Title: _____

EXHIBIT A
SCOPE OF SERVICES

Rocky River Private Property Dye Testing Westmoor/Glendale/Buckingham/Argyle Areas Project

Task 1 – Public Relations

1. AECOM will support the City-led public relations for the project. This includes participating in one public meeting with the residents in the study area, developing a mailer and door hanger prior to testing. This also includes a workshop with the City after the testing is complete to discuss the findings and next steps toward rehabilitation.

Task 2 – Detailed Residential Dye Testing

1. Approximately one hundred twenty-seven (127) of the residential houses on Westmoor Road, Glendale Drive, Buckingham Road and Argyle Road will be dye tested. The homes tested were selected by the City.
2. Water from a fire hydrant is added to the house being tested through the manifold. Dyed water is then added to the downspout. CCTV equipment will be used in the mainline sanitary sewer to observe the house lateral for dye transfer.
3. Field crews will test each downspout individually for each residence to identify which downspout may be transferring dye to the sanitary sewer. Any low-lying areas, cracks in the driveway or sidewalk or yard drains will also be tested. All testing is external of the home. No entry into the home will be conducted by AECOM staff.
4. Field crews will distribute door hangars to all properties approximately 1 calendar days prior to the start of the testing. Crews will also notify the resident upon arrival that the test will commence and ask that the resident not use any water during the test (approximately 30 minutes).
5. Lateral Launches will be used as much as possible during the test to inspect the laterals and identify dye transfer locations. Lateral launches have limitations with offset joints and debris.
6. AECOM will complete a field form for each house to identify the testing information and results of each dye test. Detailed backup data for each positive house will be provided for the City to coordinate with the resident and contractor for repairs. This includes the CCTV logs and photos of the lateral launch and defects found.

Task 3 – Model Update

1. The hydraulic model developed for Sewershed 12 update project will be revised after the dye testing results are complete to further identify the I/I quantity input from private property. Flow and testing data will be used to quantify the potential I/I removal private property rehabilitation is conducted.

Task 4 – Reporting

1. AECOM will prepare a report that includes a summary of the field work, and hydraulic model review based on flow and testing results. All logs of CCTV work, videos, field forms for each house tested and graphic locations of testing will be included. AECOM will prepare 1 electronic draft report for the City review.
2. AECOM will submit a final report within one month after the completion of all field work and workshop meeting. One electronic final copy will be submitted.

CITY OF ROCKY RIVER RESPONSIBILITIES

- The CITY shall provide access to water from hydrants including any necessary permits at no cost to AECOM.
- The CITY shall provide AECOM staff access (consent) to enter upon public property as required for the performance of the Work.
- The CITY shall provide AECOM staff, at no cost to AECOM, all available information, reports, studies, testing results, maps pertinent to the Project if required.
- The CITY shall be responsible to provide, only if necessary, any sewer cleaning prior to any of the CCTV inspection of the sanitary sewer.

SCHEDULE

AECOM will provide the CITY a schedule within ten (10) days of being authorized to begin work.
